Puma SA 330 Series

## Immediate Sale Offer: Puma SA 330 L

Serial Number 1405

**Aerospatiale SA330 PUMA ZU-PUM**

## Sale offer

This immaculate SA 330 PUMA is offered for sale for \$ 2.5 million USD, net of any commissions and taxes, payable in the Republic of South Africa, delivery ex Thunder City works, Cape Town, Republic of South Africa.

When dealing with Agents Thunder City requires complete transparency and disclosure in all dealings.

It is currently owned and operated by Thunder City Aircraft company based in Cape Town and is in regular use with a current Certificate of Airworthiness.

The aircraft can be configured as a quick change from 11 seater VIP + 3 crew to 16 troops+ 1 loadmaster + 3 crew configuration as well as for Medivac.

It can also be fitted with ferry tanks, fire fighting equipment, flotation gear, NVG and hoists if required.

This Puma is retrofitted with the **state-of-art Cobham glass cockpit with 3D Synthetic Vision with Terrain Awareness, Hover Vector and Highway-in-the-Sky.**

This modernisation provides pin point navigation, terrain and obstacle warning, all weather capability and improves the situational awareness of the crew.

Its enhanced flight safety and reliability ensure longevity of operations almost indefinitely.

The key equipment in the Cobham suite carries FAA Supplementary Type Certificates (STC), and has level A software approval.

This Puma SA 330L has been fully refurbished including P4 inspection, and has just recently completed its 100 hour inspection service. The completed list of equipment is listed below.

Thunder City AMO 288 is also in a position to provide conversions to type and technical and remote maintenance support for all aspects of PUMA operations, dynamic components and P4 including glass cockpit support and training.
